

THE YOLO DEMOCRAT.  
OFFICIAL PAPER.

Saturday, July 24, 1870.

**EASTERN SHAKES.**—A New York dispatch states that an earthquake was felt in that city and Brooklyn a few days ago, doing no damage.

**RUMOR.**—The Sacramento Bee says it is rumored that the steamer Capital is about to be placed on the route between San Francisco and Vallejo.

**WHEAT.**—In consequence of the fall in the Liverpool market, the price of wheat has fallen off somewhat during the week. It is now quotable at \$1.00 to \$1.05 per 100 lbs.

**MARYSVILLE FOUNDRY.**—A large boiler and lot of machinery went up on the California Pacific Railroad last week for the new foundry to be established at Marysville.

**IMMENSE.**—The Vallejo Chronicle says: On Sunday morning a daughter was born to the wife of Elias Viera, residing on the Sulphur Spring road, which weighs sixteen and one quarter pounds.

**THE SACKS BOUGHT UP.**—A San Francisco letter has brought up all the grain sacks in the market of the size of 23x36 inches, and all to arrive in two months. The object of course is to "regulate" the market.

**NEVADA.**—The Sacramento Reporter says that Barclay Henley, Senator Lewis, and several other prominent Democratic speakers of this State, propose going to Nevada, and taking part in the canvass, which will soon open.

**ENLARGED.**—The Sacramento Record has been enlarged to the size of the Bulletin, and is now a first-class paper, giving the telegraphic news from all parts of the world, adult local record, commercial reports, etc., all for two bits per week.

**FOUR MEN KILLED.**—At Gold Hill, June 20, a cave occurred in the Yellow Jacket mine, between the 800 and 900-foot levels. Four miners were killed. Their names were Manuel Alameda, Patrick Doherty, John Kennedy and Ralph Hanson.

**REDUCTION IN FREIGHT.**—The Solano Republican says the California Pacific Railroad Company have decided to reduce their freight rates on grain fifty and twenty-five cents per ton, according to stations—the reduction to take place July 1st.

**ANOTHER TERRIFIC FIRE.**—On last Wednesday a great fire in Pittsburg was caused by an oil tank of 20,000 barrels being struck by lightning, which caused it to explode and burn. The blaze ran toward the river burning everything in its path. Loss, \$500,000. Henry Foster was burned to death.

**NEW EDITOR.**—Mr. Richard O'Sullivan, formerly editor of the Dublin Nation, but more recently of the Freeman's Journal, published in Sydney, has been engaged as one of the editors of the Monitor, in San Francisco. He is regarded as a fluent and forcible writer, and is, therefore, a great acquisition to the editorial corps.

**TO BE CONTINUED.**—The Sacramento Bee, says the Pullman train which leaves Sacramento on the 7th of July, will be the last of that kind to run regularly over the Central Pacific road. It is said the Railroad Company has been losing money by them, while the Pullman Company have made a very good thing by the arrangement.

**EGGSACTLY.**—The Oroville Record says: The number of eggs exported from Oroville during the year ending June 1st, 1870, amounted to no less than four hundred and forty-two thousand and eighty! This, too, while the deprivations of our Mongolian population have been a great drawback to the egg and pullet trade of Oroville.

**PROFITABLE INDUSTRY.**—The Los Angeles Star gives some interesting and important information concerning the cultivation of beets and the manufacture of sugar therefrom. It states that one ton of beets will make 160 pounds of sugar, one acre of land producing 30 tons of beets, yielding when manufactured \$597.60. No accurate data has as yet been obtained as to the cost of manufacture, but the full details will soon transpire.

**VERY WELL PUT.**—Referring to the carpet-bag scalawag, Whittemore, the Stockton Republican sets him up in this sarcastic style: "On the principle that this is a representative Government, Whittemore is entitled to his seat in Congress. He was known and recognized as a thief, and as such was re-elected and returned to a seat from which his rascality expelled him. He undoubtedly represented his constituency, and is therefore entitled to a place to which, as a thief, they have elected him."

**THE "FOURTH."**—On Monday next we expect to see such a gathering in Woodland as has not assembled here for many a day. The Committee have exhausted all the means at their command to make the celebration a grand success. This will be the great celebration of the county. We are ever pleased to know that in Devilville and Knight's Landing arrangements have been made to commemorate the day in a proper manner by all who do not join us here. This is proper, but we do not wish to enter into the celebration in the spirit of 76—with patriotic fervor and enthusiasm to come here and answer to the loud-mouthed artillery and the strains of patriotic music—"Glorious America always shall be free!"

Where Are They?

Pixley says "there are less permanent white residents in California today than thirteen years ago." We doubt the correctness of this statement, but one thing is certain—if the thousands of Chinese who occupy positions in this State were filled by white men it would be a very different condition to-day. The whites have been driven out of the State by being brought in competition with these degraded beings, who work for lower wages than white men or even negroes can live upon, and besides that, take the money they earn out of the country, instead of, as our own people would do, improving, developing, enriching and beautifying it. We allow our own race to be driven out and their places filled by Mongolians, and the result is so plain that the Radical press of the State is at last compelled to cry out against their further importation. And one thing may be mentioned in this connection not much to the credit of the latter. While the Legislature at its last session was endeavoring to devise some method to prevent the Chinese from further swarming in upon us, the Radical papers of the State, with few exceptions, did all in their power to hinder and prevent legislation in that direction. All of a sudden they have changed their tune. The only way in which we can account for this is, that the evil has reached Massachusetts, or that they "snuff the battle afar off," and see that something must be done to propitiate the voters brought into competition with the Chinamen, or they will lose the next election. And we are inclined to believe the latter is the real cause of the sudden change in the tone of the radical papers. Laboring white men are now almost unanimous on this question. They see that their very subsistence depends upon it; and if Chinamen occupy all the avenues of labor, there will be nothing left for them but to leave the State. And they will vote with the party which has consistently and from the first opposed the importation of the idol-worshippers, who are undermining in every way they can, our own people; that is, with the Democratic party. The Republican leaders have discovered this, and now comes Frank Pixley, one of their brightest lights, and cries aloud against the Chinaman, against the Pacific Mail Company for bringing them to our shores, forsooth, and even going so far as to advise the mob to "burn the ships at their wharves," unless the importation be stopped. We trust it will be stopped; but there are better ways of doing it than Pixley proposes. A few more doses of Chinaman prescribed to Radicalism at the East would probably have the desired effect, without resorting to any such lawless course as burning steamers or the destruction of any other property. Wake up Sumner, Chandler & Co., and the thing is done. They hold the reins of government and can make laws to suit any emergency. California is powerless to defend herself. Congress is supreme! Hence, anything that can be done to enlist the sympathies of the aforesaid firm in behalf of down-trodden white humanity will rebound to its advantage. Get those great leaders of the "purity" party to sound the war-cry, and all the common herd will join with Pixley in his raving, impulsive shout, "Down with the Chinaman!"

**THE RIGHT MAN IN THE RIGHT PLACE.**—We understand that the Governor has appointed J. Russ Smith of this County a member of the State Board of Equalization. This is one of the very best of the many good appointments made by Governor Haight. Mr. Smith is an old citizen and farmer of this county, ever a consistent Democrat, and enjoys the merited confidence of a large circle of friends and acquaintances. He is well qualified for the discharge of the duties of the responsible position to which he has been appointed. He is neither a politician nor an office-seeker, and is therefore one of the few men whose sterling integrity and business qualifications, joined to mature judgment, alone have recommended him to the favorable consideration of the Governor in making this appointment. The office sought the man, and found emphatically a good one. With such men forming the Board—clothed as they are with ample power to inquire into the manner in which the Assessors have performed the duty devolved upon them, and where necessary, required to revise their work by equalizing the assessments on all kinds of property throughout the State—the people may reasonably expect beneficial results to flow from the workings of the law.

**CHINESE NATURALIZATION.**—The telegraph reports that Charles Sumner has declared in favor of the naturalization of the Chinese. We trust this report is false, as everything he has favored heretofore has been bolted by his blind followers without mastication. If we are not mistaken, however, in the tone of public sentiment, Sumner will lose this time. They have been having a taste of the Celestials at the "hub" lately, and the echo comes back from there that the white laboring men are rising up against the Mongolians. This is one of the best signs of the times. Tread on the toes of the Bostonians and all Radicalism will rise up in their defense. We are glad the Bostonians have had an opportunity to see the effects of Chinese labor in this country. The result can but be beneficial. Even Sumner cannot afford to do without the votes of poor white men, and unless he takes the back track on this Chinese question he will find that even he will be left out in the cold.

**THE WOOL CLIP OF THE ENERAL RANCH.** Los Angeles county, reaches 150,000 pounds.

Good Advice.

Those numberless poor and destitute men who hang around our cities and suffer poverty, and hunger, are generally informed by one of our interior papers how to change their destinies for the better. They are told that all they will have to do is to get farms and cultivate them; and the writer goes into the details of the matter, by suggesting in a kind and wise way, that they at first devote their attention to the cultivation and sale of only such produce as finds ready market at advantageous prices, after which, with the money thus made and carefully saved, they can branch out and become farmers on a large scale. It seems never to have occurred to the writer that the object aimed at—the rescue of those poverty-stricken individuals—could have been better achieved by advising them to get a hundred thousand dollars apiece and after investing the money in untaxable bonds, or some other good stock; to just take things easy and live like princes. The well-meaning writer and would-be benefactor to the poor must have been educated in the same school with that noted old capitalist, who told how easily a poor man might live with only a capital of fifty or a hundred thousand dollars. His cheering advice has been read eagerly by many a poor fellow, who imagined himself about to be set on the high road to fortune, but who soon felt as badly sold as did the colored folks when their exhorter was trying to encourage them. Said he, "My mornin' friends, when your souls is downcast and your hearts am overflowin' wid sorrow, dar am one place whar you kin find consolation—dat blessed word consolation, all de time." Clamorously the darkeys wanted to know where to find the blessed word, and he answered with solemn triumph, "in de dictionary!" And his promises were about as well kept as the brilliant and thoughtful propositions of the writer of this "good advice" when he urges the destitute of our cities to get farms and cultivate them. Why might he not just as well have invited them to get railroads, or banks, or to become millionaires at once? The one would be as easy as the other, and in each case the good advice is about as valuable and as practical.

**LAND MONOPOLISTS.**—Among heavy land owners in this State are enumerated Miller & Lux, owning 400,000 acres; General Bidwell, 250,000, and a number of others 20,000 to 100,000 acres. This of course retards the development of the State to the extent that each owns more than a good sized farm. Suppose the above 400,000 acres owned by Miller & Lux were divided into farms of 500 acres each, (too large by one-half for the general good), this alone would make 800 large, productive farms furnishing profitable employment for at least double that number of families. What an immense difference this would make in the prosperity of the State. And as these lands are among the choicest, if they were not kept out of the market by speculators they would of course have been under cultivation long before this.

**HEAVY LUMBER.**—The Stockton Republican says: Rumor has it that the great showman, Barnum, has contracted for a section of 100 feet from the largest tree of the Big Tree grove. It will weigh about 200 tons, and will consume about nine months in the transit from the grove to this city. From here it will be taken by water to New York. The estimated cost of the log laid down in New York is \$100,000.

# THE YOLO DEMOCRAT.

## Over the Bars.

From the meadows, sweet with clover,  
And from the fields, where the daisies grow,  
A gentle breeze, that with the drowsy  
Sighs of the night, and the soft, sweet  
While a magic spell with the night dew fell,  
And the rhythm of song.

The cattle stood at the fence side,  
Without any show of alarm,  
As though they were a five-bar gate,  
And the gentle breeze, that with the drowsy  
Sighs of the night, and the soft, sweet  
While a magic spell with the night dew fell,  
And the rhythm of song.

She heard him say that his home was poor,  
That he had nothing but a five-bar gate,  
And the gentle breeze, that with the drowsy  
Sighs of the night, and the soft, sweet  
While a magic spell with the night dew fell,  
And the rhythm of song.

So over the bars the lovers leant,  
In the joy of their sweet communion;  
And the gentle breeze, that with the drowsy  
Sighs of the night, and the soft, sweet  
While a magic spell with the night dew fell,  
And the rhythm of song.

Now under the stars and over the moon,  
O'er sweet music go the drowsy  
Sighs of the night, and the soft, sweet  
While a magic spell with the night dew fell,  
And the rhythm of song.

Where pretty Jane, in the fragrant lane,  
Beneath the heart of the drowsy  
Sighs of the night, and the soft, sweet  
While a magic spell with the night dew fell,  
And the rhythm of song.

Another Salt Lake has been discovered. It is 30 miles long by 10 or 12 wide, and 200 miles from San Diego, and is alive with fish.

The New York Commercial Advertiser (Radical) says: "It will be no fault of the Republican Senate and Congress if the party is not defeated in every State in the Union."

Gov. Bullock is a far worse man than supposed. It is claimed that he is a disgrace to the Radical party. He must be vile indeed, if he can accomplish a seemingly impossible task.

M. B. BATHAM, Secretary of the Ohio State Horticultural Society, estimates that, in 1898, there were 500,000 acres devoted to fruits in Ohio, and that the value of the fruit crop of the State that year was over \$7,000,000.

The census takers get two cents for every farm, fifteen cents for every productive establishment of industry, two cents for every deceased person, and two per cent of the whole amount enumerated for social statistics, and ten cents per mile for travel.

The great conflagration in Constantinople was attended with the greater loss of life than has occurred at any fire for hundreds of years past. Even the great fire in London produced no such mortality. The number burned and killed by falling walls in Constantinople, is estimated at 2,000.

BRICK POVERTY rejoices over the visit of the California school-marm. He says: "If we have a weakness, it is one all-pervading desire to be invaded by good-looking school-marms. He comes on, you millions of California lads, in and millinery, and let the Democrat be your first point of attack."

SOME boys at Chicago dropped an anvil weighing 200 pounds out of a fourth story window, on to the head of an African who was passing when he had them arrested. He said he was willing to let the boys have fun, but when they jammed a "genaman's" hat down over his eyes, and sported it in that way, the law must take its course.

THE San Joaquin Republican says: Eliza Revels, a sister of the colored United States Senator from Mississippi, Hiram R. Revels, is an inmate of a New York city poorhouse. Her distinguished brother refuses to assist her, or even answer her letters applying for aid. A subscription for her benefit was started in the office of Pomeroy's Democrat.

SILK WORMS.—The silk interests of California, says the Bee, promises well this year. In the great cocoons at Davisville there are an estimated 2,000,000 worms, and the proprietors have 100 acres in a mulberry plantation, from which to feed them. Everything is all that could be desired. The worms are of all ages, from the earliest to the latest, and some are just eating out of the cocoon—but all the worms are strong and the cocoons excellent. We hope to hear good accounts from this engaged in this business, so that we may be soon sending the car loads of raw silk across the continent on their way to Europe, instead of having them come from China and Japan. Newington for the purpose of presenting to Congress the beautiful silk flag manufactured by him for the National Capitol.

HOW SUGAR IS REFINED.—The way in which sugar is made perfectly white, it was found out in a very curious way. A boy, that had gone through a clay mudslide, went with his muddy feet into a sugar house. It was observed that wherever the tracks were, the sugar was whitened. The result was that wet clay came to be used in refining sugar. It is used in this way: The sugar is put into earthen jars, shaped as you see in the leaves. The large ends are upwards. The small ends have holes in them. The jar is filled with sugar; the clay put over the top, and kept wet. The moisture goes down through the water tank, and drops from the hole in the small end of the jar. This makes the sugar perfectly white.

THE RAILROAD.—Before this issue reaches some of our subscribers, says the Northern Enterprise, of June 25th, the long-looked-for railroad will have reached Chico. It is expected that a passenger train will enter Chico on this (Saturday) evening. The platform for the water tank is expected to be put in place in a few days to furnish a supply. The place for the turn-table is laid off a short distance from the water tank, and the depot will also be somewhere in the same vicinity—near the middle of the field. The railroad cuts the field in the center, and we understand that all on the lower side of the track will be laid off into town lots, blocks and streets, and become part and parcel of the city of Chico.

## ADDRESS

## To the Nervous & Debilitated.

Whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable; If you are suffering or have suffered from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or sticky, or is itropy on setting? Or does a thick scum rise to the top? Or is there a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspnea? Are your bowels constipated? Do you have spells of fainting or rushing of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant, the bloom on your cheek as bright? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not let it go to your liver or dyspepsia. Have your restless nights—your back weak, your knees weak, and but little appetite—and you attribute this to dyspepsia or liver complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering successful business men are always those whose generative organs are perfect health? Such men never complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies and look you and them right in the face—none of your downcast looks or any other meanness about them. I do not mean those who keep the organs inflamed by running to excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly cured diseases, from the effects of self-abuse and excesses, have brought about that state of weakness in these organs that has reduced the general system so much as to induce almost every other disease—idiotcy, lunacy, paralysis, spinal affections, sciatica, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder and Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of posterity, depends upon the prompt use of a reliable remedy.

Helmold's Extract Buchu, established upward of 19 years, prepared by H. T. HELMOLD, Druggist, 40 Broadway, New York, and 101 South Tenth street, Philadelphia, Pennsylvania. Price—\$1.25 per bottle, or 6 bottles for \$8.00, delivered to any address. Sold by all Druggists everywhere.

NONE ARE GENUINE UNLESS DONE UP in steel engraved wrapper, with fac simile of my Chemical Warehouse, and signed

# THE HOWE MACHINE CO.'S

## WORLD RENOWNED SEWING MACHINES!

Paris Exposition Universelle, 1887, Grand Cross of the Legion of Honor.

To ELIAS HOWE, JR., the inventor, and Gold Medal for the best Sewing Machine!

The Highest Honors Ever Conferred for Sewing Machines.

This Machine has long been regarded as the standard of excellence, and has become celebrated the world over. The work done by these Machines is unsurpassed—sewing the thickest material or the thickest cloth, with equal facility, and requiring no extra adjusting for uneven thickness or passing over seams as long as the fabric will stand. To see it hem, fold, tack, braid, cord, quilt and gather, is more like a thing of life than a machine moved by the will of the operator. It is capable of doing every description of sewing that is required in a family; and also for seamstresses and dressmakers it will be invaluable. They seldom, or never give any trouble in operating, and in a word, are the most satisfactory Sewing Machines in use.

Notwithstanding their great superiority, they are sold at prices as low as other classes of machines.

A Medallion likeness of Mr. Howe is embedded in the plates of every Howe Machine, without which none are genuine. Every purchaser of a Sewing Machine should inquire for ELIAS HOWE, JR.'S SEWING MACHINE, and if they are not sold in their vicinity, they should write to the General Agency for Illustrated Circulars, etc., and do not purchase until they have thoroughly investigated these renowned machines.

Ayer's Cherry Pectoral,

for

Diseases of the Throat & Lungs,

Such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma and Consumption.

Probably never before in the whole history of medicine has anything won so widely and so deeply upon the confidence of mankind as this excellent remedy for the lungs and throat.

Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them.

When added to milder forms of disease, and to young children, it is at the same time the most certain remedy that can be given for the cure of the throat and lungs.

It should be kept on hand in every family, and in all hospitals, and should be provided with its antidote for them.

Although the disease is not cured, it is thought the disease is cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its action over the disorders of the Lungs and Throat that the most obstinate yield to it.

When nature rises in its revolt, and the Cherry Pectoral they subside and disappear.

Singers and public speakers find great protection from it.

It is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in its earliest stages. So generally is its virtues known that you find it the certificates of their recovery, or do more than assure the public that its qualities are fully maintained.

Ayer's Aque Cure,

For Fever and Ague, Intermittent Fever, Chills, Bilious Colic, Headache, Stomach Ache, Dropsy, Bilious Fever, etc., and in all the affections which arise
